

Digital Signage System

Restaurants | Auto Dealerships | Corporate Lobbies | Retail Stores | Charitable Events | Banks | Trade Shows

The AdCast Digital Signage System is a customizable signage solution that requires no PC, computer network, or Internet connection. At 5 feet in height, it is an affordable, ready to use, low maintenance solution that can be set up quickly in almost any location where an advertising or informational message needs to be conveyed.

This unique digital sign system, which comes with a brilliant active matrix display, will immediately attract the attention of your clients, visitors, or employees. Simply plug the unit into a standard 110V AC outlet, insert a memory card with your advertising or informational content, power on the unit, and immediately begin viewing a continuous slideshow or video (with or without stereo sound).

- No PC, Network, or Internet connection required for operation
- Brilliant, Hi-resolution, LCD screen
- Display JPEG or MPEG video
- Stand alone operation

You also have the following options so you can custom-fit a solution for your specific needs:

- Memory Card Reader
- Brochure / Pamphlet Rack
- Hi-Performance Audio Speakers
- Monitor Sizes From 15" to 61"
- Poster Mounting Kit (16.5" x 45" max)
- Media Design & Conversion Service
- AdCast Affiliate Network Membership
- Purchase & Rental Options
